

Risinu Manahara

Software Engineer (Undergraduate)

SUMMARY

Software Engineering undergraduate who independently built and deployed a live tourism-tech product (web platform + Android app) end-to-end – from Firebase backend and payment integration to Google Maps API and SEO-optimized frontend. Strong foundation in OOP, SDLC, and full-stack development, seeking an internship to bring that ownership and technical depth to a real engineering team.

SKILLS:

- Java
- HTML5, CSS3, JavaScript
- Android App Development
- Android Studio
- Firebase (Auth, Firestore, Realtime DB)
- XML UI Design
- SQLite Database
- REST API Basics
- Google Maps API Integration
- OOP Concepts
- Git & GitHub
- Responsive Web Design
- Problem Solving

EDUCATION:

JAVA INSTITUTE FOR ADVANCED TECHNOLOGY

2023 – Present

BSc (Hons) in Software Engineering

LANGUAGE:

- English
- Sinhala

KEY HIGHLIGHTS:

- Built and deployed a live full-stack tourism platform (web + Android) designed for real foreign travelers exploring Sri Lanka – beyond a classroom project.
- Designed and implemented Firebase backend architecture supporting user authentication and booking workflows.
- Integrated third-party APIs, including Google Maps API, into a production Android application.
- Delivered the complete software lifecycle independently – from architecture planning and frontend design to backend development, testing, and deployment.

PROJECTS:

LETSGO – PRODUCTION FULL-STACK WEB & ANDROID

APPLICATION | 2023 – PRESENT

Built a tourism platform for foreign travelers (Web + Android).

- [Website](#)
- [Mobile App](#)

- Website: Multi-page tourism website with driver booking, custom tour pages, custom design system, and SEO optimization.
- App: Java + Firebase Android application with authentication, booking, profile, map view, and tour history features, integrated with Google Maps.
- Extended an academic group project into an independently developed and deployed live product.

CERTIFICATIONS:

Level 4 Professional Diploma in Software Engineering

Skills & Education Group Awards (UK, Ofqual-regulated) | Oct 2025

- Distinctions in Object-Oriented System Analysis & Design, Computer Hardware & Networking, and Software Project
